Cone style bearing heaters (non-induction)

- Extend bearing life and cut operating cost by eliminating hammering and pounding to cold-mount bearings. Works on bearings, sprockets, gears, couplings & sleeves
- Lower cost than larger induction heaters
- Lightweight and portable
- No special wiring or set up
- Start and stop with a switch
- Flexible: one cone bearing heater fulfills a range of bearing sizes
- Temperature control on -CB versions

Market Applications:

- Service centers and repair truck fleets
- Flexible manufacturing repairs for press-fit applications
